#### WHY CHANGES WERE MADE

ACTION TAKEN ON RECOMMENDA-TION OF PRESIDENT NEWMAN.

Pensioned Employes on the Pennsylvania Appreciate Its Benefits-Numerous Official Changes.

Vice President W. C. Brown, of the Lake Shore road, who on Tuesday last was appointed third vice president of the New York Central, left Cleveland yesterday for New York, where he will at once assume his new duties. Mr. Brown was accompanied by A. H. Smith, who relinquishes his post as general superintendent of the Lake Shore to fill a similar position on the Central. A new general superintendent of the Lake Shore to succeed Mr. Smith will not be named until P. S. Blodget, the newly-appointed general manager of that company, takes charge, which, it is understood, will be within a few days. The New York Commercial says the changes were made to relieve President Newman. The position of third vice president and general manager of the Central was abolished during the administration of Samuel R. Callaway. Its re-creation means great relief for Pres-

ident Newman from a multitude of details. Just how much and what particular sigwhich many will speculate. In the absence of any intimation whatever that anything | ped in the last seven months, the average of this kind was contemplated, more than one person was unprepared for these moves on the Vanderbilt checkerboard, and will be at a loss, probably, how they ought to be construed. It is entirely fair to presume that they were recommended by President Newman and simply received the ratification of Mr. Vanderbilt and of the board of directors. In some respects, possibly, the orders will carry with them the suggestion | Passenger Agent Rinearson's jurisdiction as being preliminary to other surprises. Usually, in matters of this kind, some little hint is had that permits a prognostication. pervision of Mr. Brown are to receive unmen identified with the orders have more or less apprehension as to what is possibly forthcoming until future events and circumstances more clearly determine what they can expect and what is to be done. Whether there will be any more changes is not indicated below the surface and conclusions and assumptions are vain.

> There was more animation to trade yesterday than on any other day of the present month, weather conditions having so improved that that the commission merchants took advantage of it and pushed business, filling many delayed orders. Strong prices were the feature on Commission row. Irish potatoes, on decreasing receipts, are firmer, but not quotably higher. There is a stiffening tone in prices of sweet potatoes. Shipments of apples and oranges were large, especially of oranges. One commission merchant states that he sold more oranges yesterday than in any day since he established his house. Prices continue strong on apples and very reasonable on oranges. Florida tomatoes and strawberries are arriving more freely, and prices are weakening. Cereal foods still tend toward weakness. The grocery market presents no special features. Syrups and molasses are very firm, and seldom have been used to so large extent. Beans are weak, but other staple groceries are unchanged. The produce market is lightly supplied, and prices are very firm at advances of Wednesday. Eggs are fast sellers at 23 cents. Butter moves readily at quotations, arrivals being quickly taken if | The Veteran Hand Engine Firemen's Club choice. The hide market seldom is as weak as at present. One of the leading houses say that the fewer hides they handle at the present low figures the better off they are. Notwithstanding the weak tone to hides, leather is steady, and prices are firm. The iron and steel markets are very active, and prices are hardening, although as yet only wire nails have advanced. Dry goods houses report trade K. Elliott, Chas. E. Brigham, John L.
